Write a shell script that uses the if statement to check if a number is greater than 10 and prints a message accordingly.

```
cdac@DESKTOP-4UCUGOV:~$ read -p "Enter a number: " num
Enter a number: 44
cdac@DESKTOP-4UCUGOV:~$ if [ "$num" -gt 10 ]; then
> echo "$num is greater than 10"
> else
> echo "$num is not greater than 10"
> fi
44 is greater than 10
```

```
cdac@DESKTOP-4UCUGOV:~$ read -p "Enter a number: " num
Enter a number: 44
cdac@DESKTOP-4UCUGOV:~$ if [ "$num" -gt 10 ]; then
> echo "$num is greater than 10"
> else
> echo "$num is not greater than 10"
> fi
44 is greater than 10
```
