

Assignment 2 -OS

Question 8

Saturday, March 1, 2025 6:41 PM

Write a shell script that checks if a file named "file.txt" exists in the current directory. If it does, print "File exists", otherwise, print "File does not exist".

```
cdac@DESKTOP-4UCUGOV:~$ if [ -f "file.txt" ]; then
> echo "File exists"
> else
> echo "File does not exist"
> fi
File does not exist
```

```
cdac@DESKTOP-4UCUGOV:~$ if [ -f "file.txt" ]; then
> echo "File exists"
> else
> echo "File does not exist"
> fi
File does not exist
```
